

BRINGING THE OUTSIDE IN

Patio Doors

Quay PlasticsTM
PLASTIC BUILDING PRODUCTS

THE **great outdoors**

Quay **Plastics**[™]

Enjoy the whole outdoors, indoors

When you want to have a bright open view letting in the maximum amount of light the Patio doorset is ideal. The large expanse of glass lets you feel warm and secure in winter, yet allows you to let the warmth of summer into the house.

The Aspect Patio door is the end result of many years of innovation.

With just a fingertip touch the parallel sliding panels glide effortlessly on double rollers along a stainless steel track.

The door has a slim line appearance making it ideal for both traditional and modern properties alike. We have also added features to reduce noise, protect against the weather and also added high level security features. The doors are all fitted with multiple locking points and this combined with a built in 'anti-jacking' system ensures the door cannot be lifted off from the outside.

Patio doors are also worth considering for use on porches, conservatories and as partition doors within a house or into a new room.

All Patios Feature:-

- A choice of white, rosewood or antique oak finish
- A secure 6 point locking system is installed on all Quay patio doors
- The door has a 10 year guarantee
- To ensure maximum heat efficiency we have added concealed drainage and a double wool piling for improved draft proofing
- All frames are reinforced, low maintenance PIC construction
- The slim stepped 85mm outer frame ensures a minimal plaster cutback for easier installation
- Each set features 'anti-jacking' system and multiple locking points for peace of mind
- White handles are offered on white doors whilst gold furniture comes as standard on the other two finishes
- The glide track is produced in stainless steel for easy gliding every time

A patio door packed with features

Better features as standard

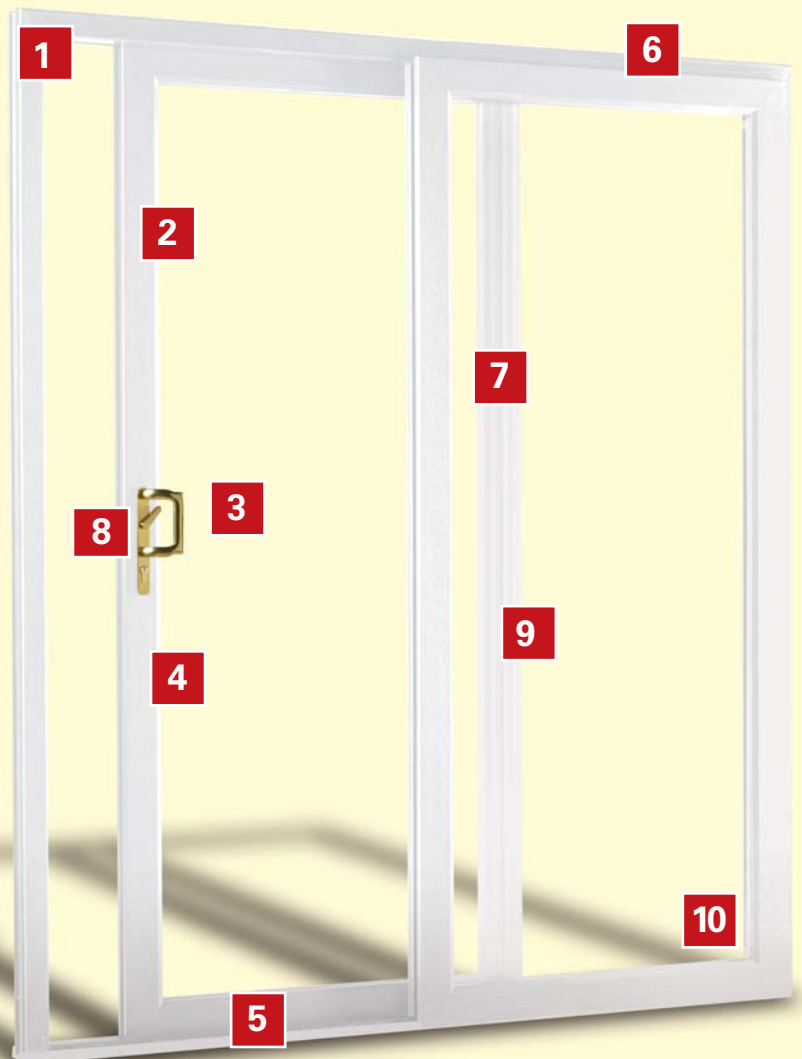

At Quay Plastics we've been at the forefront of patio door manufacture for over seven years. But it's not just the service we provide by being local to our customers; it's the design and quality of our product that makes us the number one choice.
