

Marborex[®]
wall and ceiling panels

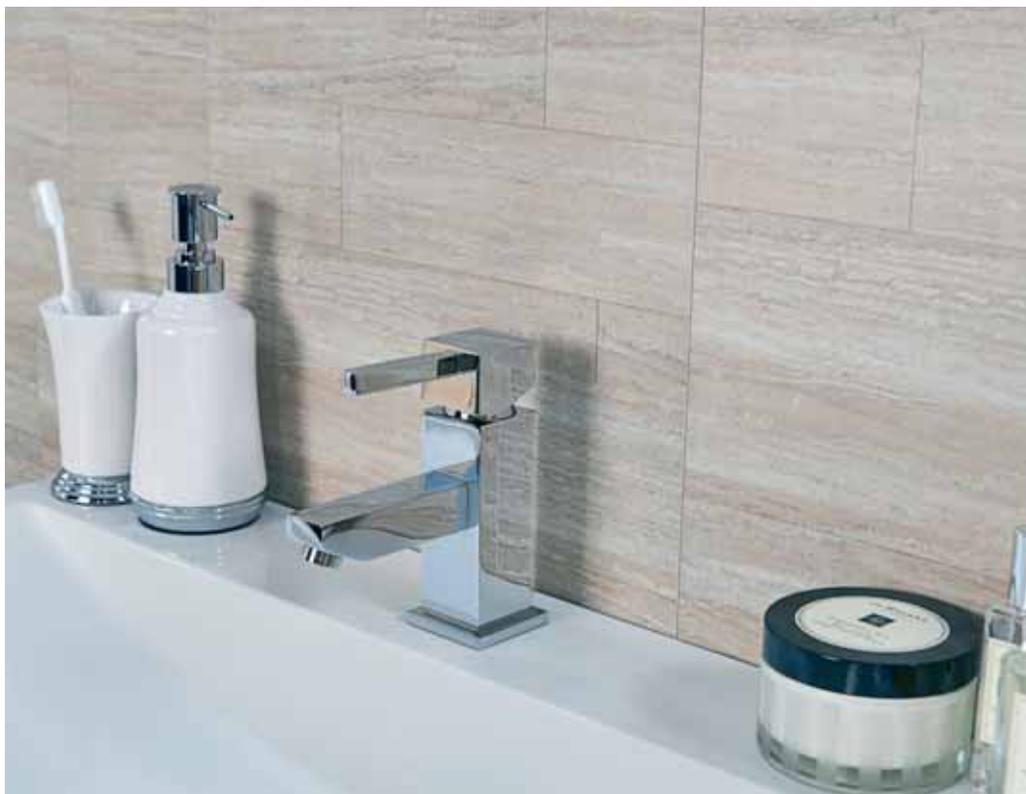

Marborex[®]

Renovate and redecorate with Marborex wall and ceiling panels for a total room transformation.

Ranging from crisp, clean, sleek designs to vintage inspired encaustic tile arrangements.

Marborex wall and ceiling panels can be installed over the top of existing tiles. They require no grout and save time, making it possible to transform a room in half the time usually required for tiling.

Style and practicality join forces with Marbrex waterproof panels. Ideal for bathrooms, kitchens and other rooms in the home, these durable and low maintenance panels put the fun into functional.

The honeycomb construction of these waterproof and hygienic panels help to reduce condensation and therefore eliminate mould growth.

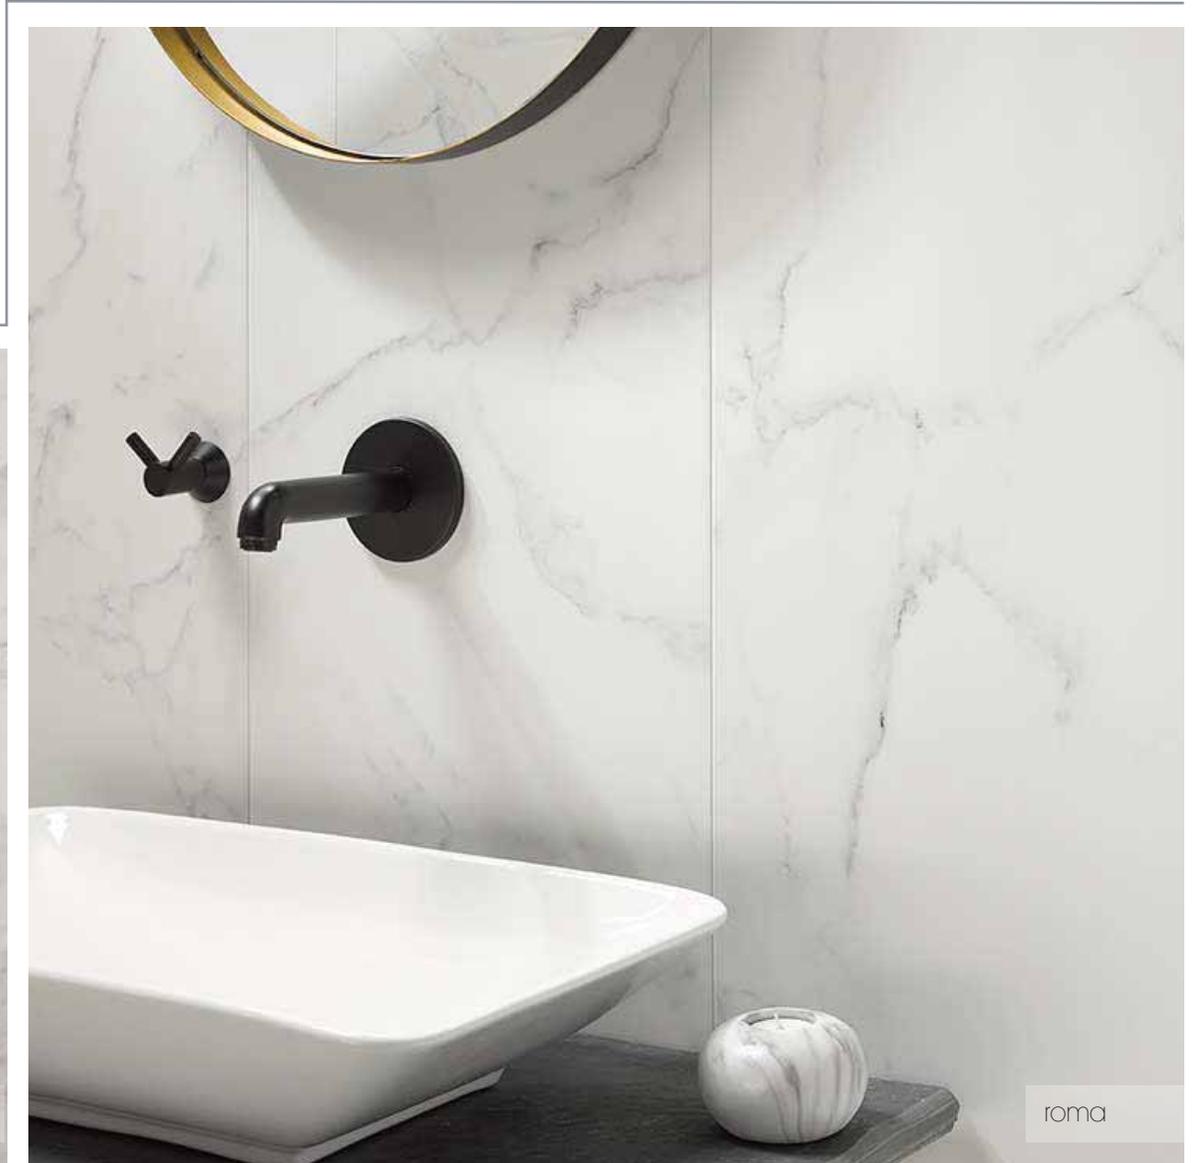

The semi-matt, metallic finish of Fired Earth provides a dramatic, yet glamorous backdrop in a bathroom. The crisp white lines of a bathroom suite pop against these striking panels!

fired earth

Marble has and always will be a classic material for use with its luxurious and clean finish in the home. Our Florence and Roma designs achieve the designer demeanor of marble without the associated price tag.

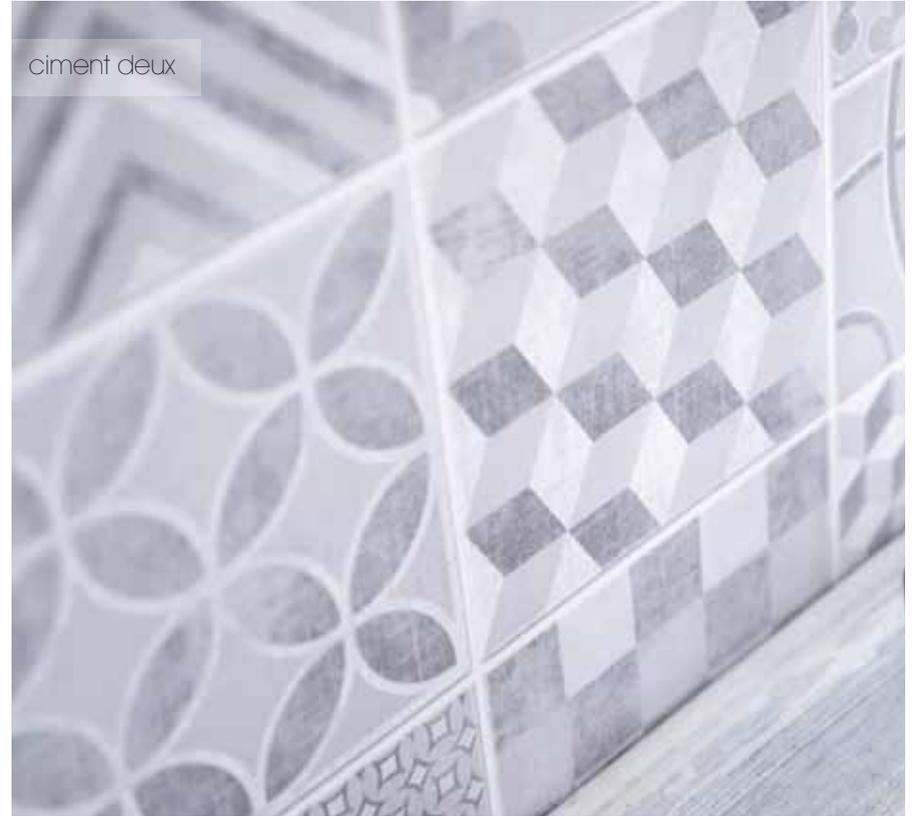

florence and roma

ciment

ciment deux

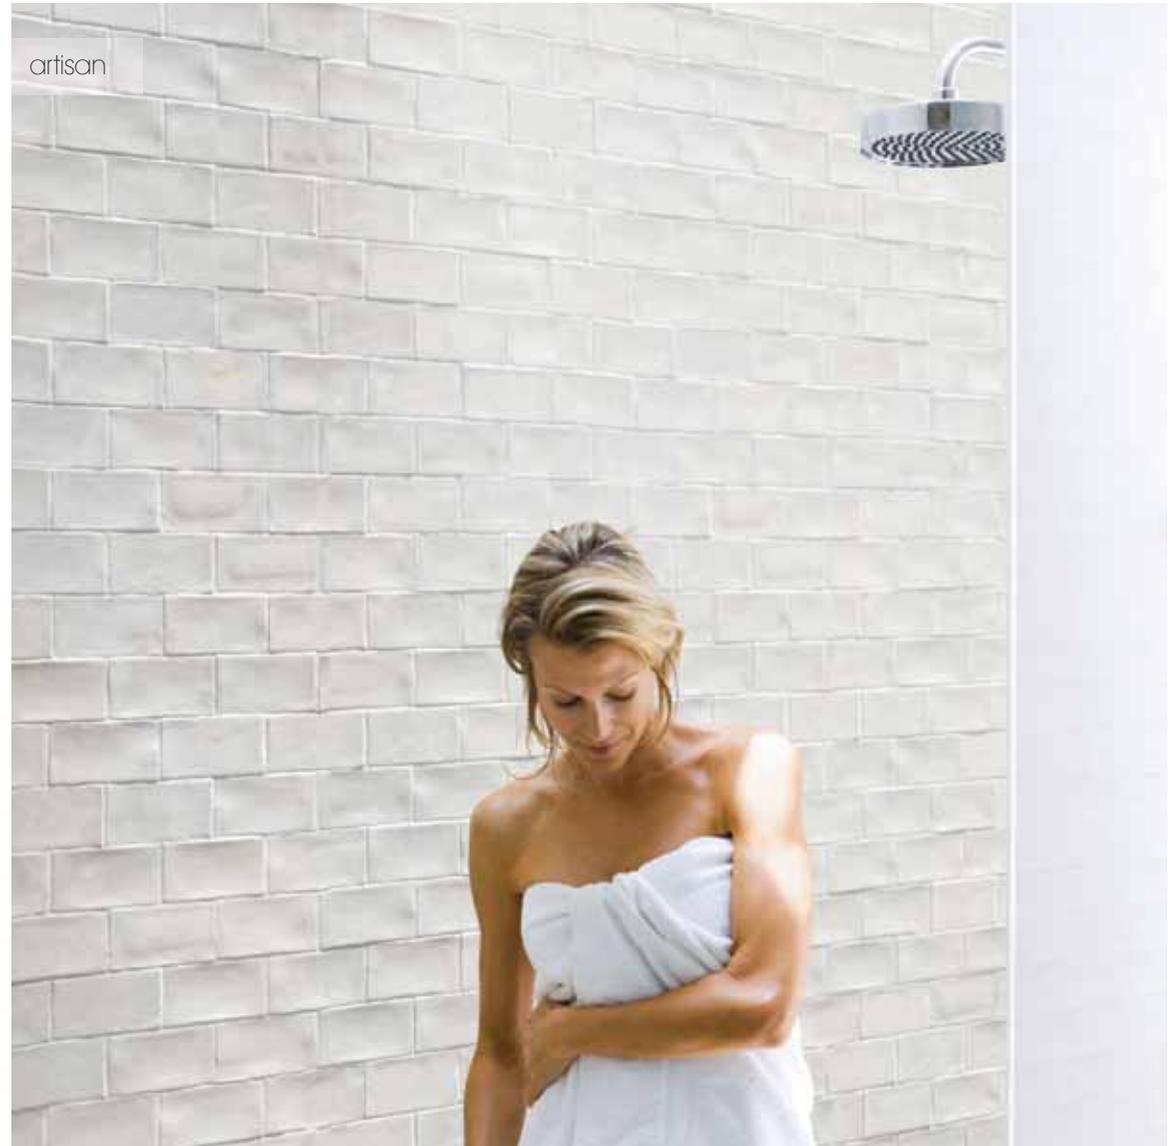

The Ciment range allows for originality with its co-ordinating tile designs. These can be used to create zones in a room while maintaining a sense of cohesion.

ciment and ciment deux

Metro style wall tiles are identified as an iconic and classic part of interiors worldwide.

Achieve the look with either our crisp, bevel edged Subway tile design or our glazed Artisan tile finish.

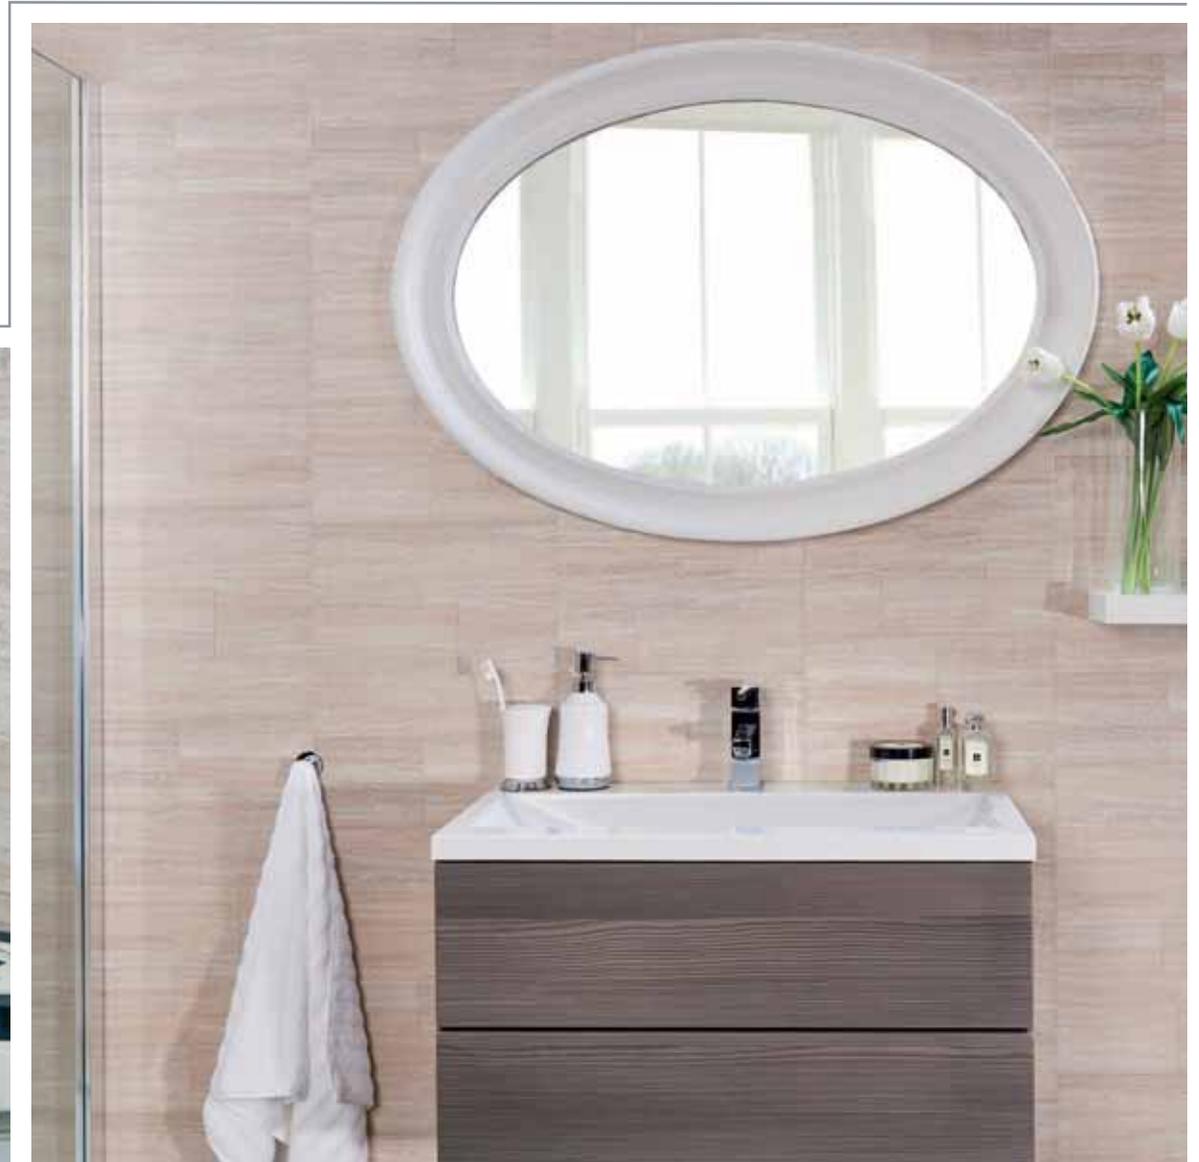

subway and artisan

The White and Taupe Dune stone tile effect panels have a modern matt finish providing a sense of elegant sophistication in a room.

white dune

This offset tile effect adds subtle, timeless interest to walls.

taupe dune

travertine classic

travertine mosaic

Travertine stone remains an excellent choice when it comes to bathroom design. The soft, muted tones of the Travertine Classic and Mosaic wall panels create a neutral, calming backdrop in a bathroom.

travertine classic and mosaic

The neutral yet striking 3D effect of the matt Grey Mosaic tile design adds stunning interest to a bathroom. The variegated shades of the grey stone tiles offset bathroom furniture beautifully.

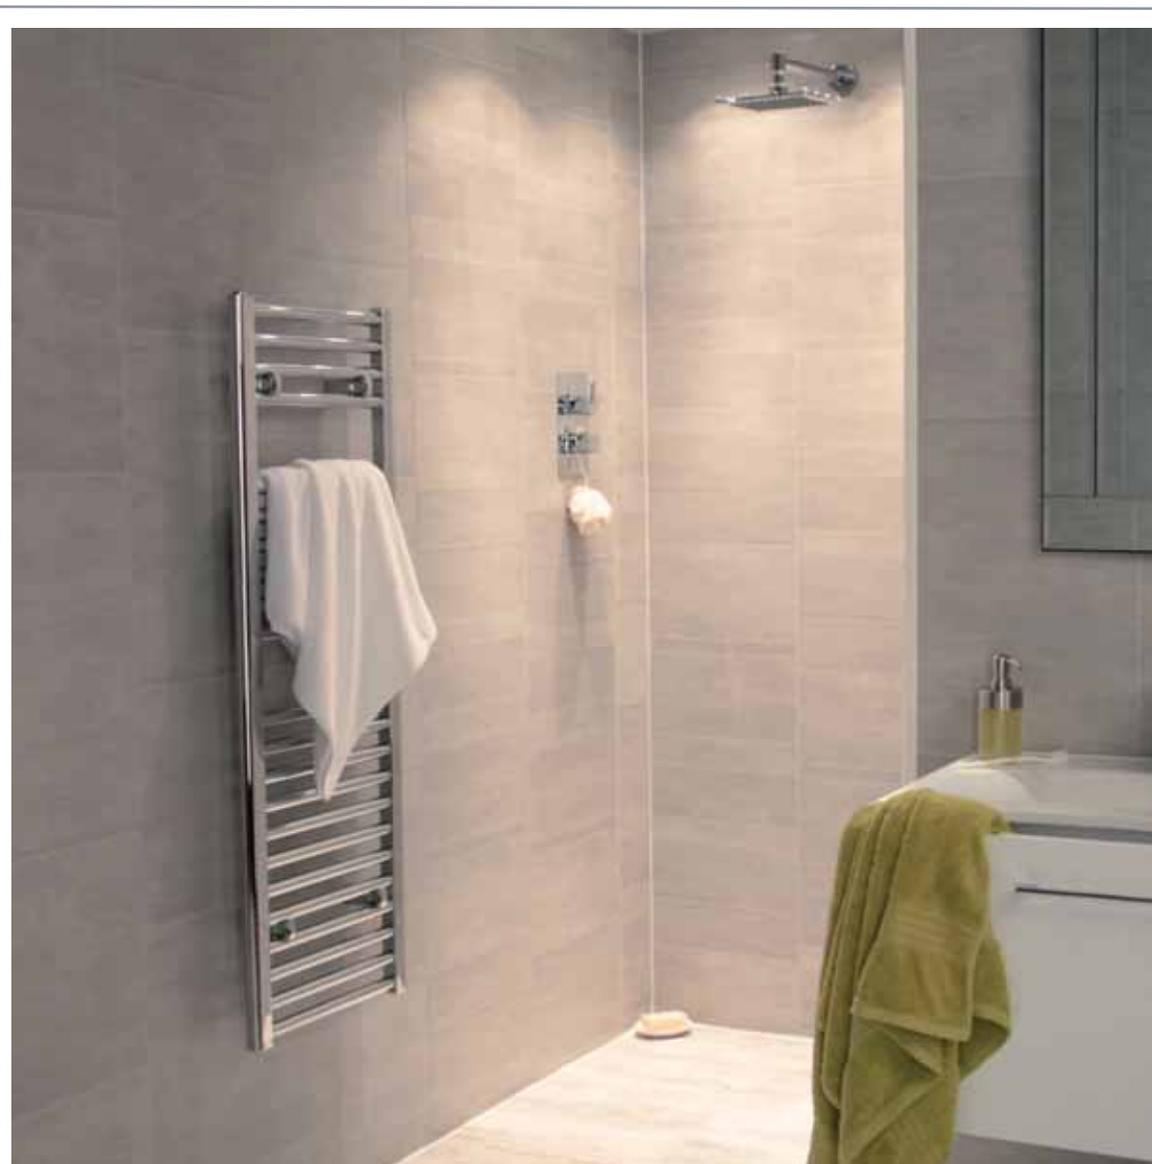

grey mosaic

The modern, matt finish featured on the Whitestone, Moonstone and Sandstone wall designs contributes to their natural stone appearance.

whitestone

The panels are available with two different sizes of offset tile designs. These can be used imaginatively to create zones in a room.

moonstone

Marbrex is an elegant paneling system for the walls and ceilings of the home or business premises. It is practical, waterproof and simple to install.

white wood

Covering all bases, designs range from modern to traditional in a variety of colours.
